

# Olisferrol® [Braunmycin]

(L-Aspartic Acid Reductase)

Once Daily. Anti-Infection Supplement.

CAS Reg. No. 1958040-35-1

## COMPOSITION

**70-IU Organic. Capsules [OTC];**

FERROUS SULPHATE 1270355 USP

ECHINACEA PURPUREA ROOT - 2018-02-01 USP

**5000--IU/L in 0.9% Normal Saline I.V.  
[Parenteral]**

FERROUS SULPHATE 1270355 USP

L-ASPARTIC ACID 1043819 USP

## UNIQUE IDENTIFIERS

US Patent 7244702 B2

US Copyright TXu1100 385; TXu0006895

US Trademark 2,903,208

NIGERIAN Trademark No. NG/TM/2009/7355

NAFDAC Reg. No. A7-0694L

## INDICATION; USAGE AND DOSAGE

Supplement for natural replenishment of anti-infective blood plasma proteins [interferons]. Use prophylactically or as required by the clinical condition of the patient.

**GENERAL WELLNESS:** 1 Capsule Daily . 3hrs before and 3hrs after meals.

**MALARIA:** 1-Capsule Daily. 3hrs before and 3hrs after meals.

**PNEUMONIA:** 1-Capsule Daily. 3hr before and 3hrs after meals.

**TUBERCULOSIS:** : 1-Capsule Daily. 3hrs before and 3hrs after meals.

## INFLUENZA /

**CORONA-LIKE VIRUSES** 1-Capsule Daily. 3hrs before and 3hrs after meals.

**FEVER/WEAKNESS:** 1-Capsule Daily. 3hrs before and 3hrs after meals. 3hr s before and 3hrs after meals.

**CATARRH:** 1-Capsule Daily. 3hr s before and 3hrs after meals.

**CANCER:** 1-Capsule Daily. 3hrs before and 3hrs after meals. OR Intravenous weekly

**HIV/AIDS:** 1-Capsule Daily. 3hrs before and 3hrs after meals. OR Intravenous weekly

## IMPORTANT NOTICE . PLEASE READ !!

**SHORTNESS OF BREATH:** DO NOT TAKE OLISFERROL. SEE YOUR DOCTOR

**PREGNANT:** DO NOT TAKE OLISFERROL. SEE YOUR DOCTOR

**UNCHARACTERIZED AUTOIMMUNE DISEASE :**  
DO NOT TAKE OLISFERROL. SEE DOCTOR

Olisferrol is an organic (NATURAL) vitamin supplement and scientifically proven to increase and sustain healthy levels of human blood-plasma anti-infection content [Interferons]. Olisferrol is not intended to cure; diagnose or treat disease. However, once daily Olisferrol can promote wellness.

## STRUCTURE AND FORMULA

Molecular structure of L-Aspartic Acid called Olisferrol [Braunmycin] (C<sub>119</sub>H<sub>163</sub>Fe<sub>2</sub>N<sub>29</sub>O<sub>71</sub>S<sub>4</sub>) were derived from an organic extract in Echinacea root using Computational Biology techniques illustrated below. Braunmycin induces macrophages in the body to secrete antineoplastic cells like Tumor Necrotic Factors, (TNF) and Interferons. The process is regulated by Macrophages and dendritic cells

## WHAT IS OLISFERROL® [ORGANIC] ?

Olisferrol® [organic] is an ORGANIC ADJUVANT THERAPEUTIC containing an ORGANIC root extract with natural quantities of a L-Aspartic Acid Reductase (Braunmycin). Dietary iron and mineral oil were added to create an emulsion. Organic extracts are derived from herbals like Echinacea and Goldenseal root. Olisferrol® is 100% natural .

## CLINICAL TRIALS SUMMARY

When administered properly Olisferrol® is safe and effective. This summary comes from a patient packet insert and contains information and instructions for people receiving Olisferrol® [organic] or their caregivers. The summary does not tell everything about Olisferrol® [organic]. Discuss questions you may have with your doctor. In the course of phases I, and II, the following summary was developed after monitoring and evaluating 950 Olisferrol [Braunmycin] patents for five years.

## HOW DOES OLISFERROL® [ORGANIC] WORK ?

Olisferrol® [organic] increase anti-infection content in blood-plasma. Specifically, induces macrophages and dendritic cells into producing Tumor Necrotic Factors (TNF) and Interferon's.

Process is regulated by Macrophages and Dendritic cells. To make sure Olisferrol® [organic] is working the doctor will ask patient to have blood tests to count the number of Macrophages, and in some cases NK-cells.

## WHAT IS OLISFERROL® [ORGANIC] USED FOR ?

Single 570-mg capsule Olisferrol® [organic] contains 500-mcg Braunmycin and can be taken ONCE DAILY prophylactically 2-3 hours before, or after meals to promote wellness. Two capsules can be taken therapeutically as needed to stimulate body cells to produce Tumor Necrotic Factors [TNF] and interferon's which can reduce duration and severity of Flu-like symptoms, fever and malaise associated with infections like Catarrh, Malaria, Pneumonia, TB and AIDS and some cancers. Cancer patients who receive chemotherapeutics and, or radiation therapy can take Olisferrol® [organic] once daily prophylactically. Intravenous form of Olisferrol® is in adjuvant water and contains 5-mg Braunmycin and can be used as an antineoplastic to fight CANCERS fueled by microbes to promote wellness.

## WHAT ARE POSSIBLE COMMON SIDE EFFECTS OF OLISFERROL® [ORGANIC] ?

**Allergic Reaction.** Excessive oral use, or injection of Olisferrol® [organic] (NAFDAC Reg. No A7-0694L) can cause mild to serious allergic reactions that are visible on the skin. Patients may experience asthma like symptoms. If this happens stop taken capsules or injection, and call your doctor.

**Normal Fever:** 30% of people that take Olisferrol® daily have reported experiencing increases in body temperature ranging between 99°F to 101°F lasting 24-48 hrs. as a one time experience 3- 10 days after starting their doses of Olisferrol® [organic] . If you experience fever greater than 102 °F lasting over 72 hrs. stop taken Olisferrol® [organic] and contact your doctor.

**Skin Abscesses:** 2% of patients who take Olisferrol® reported experiencing skin abscesses within 3- 7 days. Olisferrol® elevates phagocytic activities of Macrophages that can result in 1-2 skin abscesses lasting 7 to 10 days. If you experience more than 3 skin abscesses that persists over 12 days please stop taken Olisferrol® and contact your doctor .

## HOW IS OLISFERROL® [ORGANIC] ADMINISTERED?

One capsule can be administered orally once daily prophylactically as an dietary supplement for wellness. Two capsules can be taken therapeutically as needed . Olisferrol® in adjuvant water can be administered intravenously as a one-time treatment and followed up with supplemental treatments of Olisferrol® [organic] capsules. Please ask your doctor if the I.V. is right for you.

## WHO CAN TAKE OLISFERROL® [ORGANIC] ? WHAT ABOUT PREGNANCY AND BREAST FEEDING ?

Pregnant mothers and INFANTS LESS THAN ONE YEAR SHOULD AVOID taking Olisferrol® [organic]. One daily capsule is safe for adults, breast feeding mothers, infants and children older than one year. Breast feeding mothers can transfer homeopathic benefits to their infants. Individuals with UNCHARACTERIZED autoimmune disease SHOULD AVOID taken Olisferrol® [organic]. However, interferon's and TNF stimulated by Olisferrol® [organic] are NOT KNOWN to aggravate pathology of Systemic lupus or endocarditis. If you suffer from Endocarditis or Systemic lupus consult your doctor and ask if Olisferrol® [organic] is right for you.

## HOW SHOULD OLISFERROL® [ORGANIC] BE STORED ?

Store capsules AND IV at room at room temperature (15°C - 37°C). Capsules are best taken 2-3 years from the manufacture date.. I.V. contains enzymes and has a shelf life of 3 -weeks.

## IMPORTANT INFORMATION ABOUT OLISFERROL® [ORGANIC]

Olisferrol® [organic] (NAFDAC Reg. No A7-0694L) is an herbal supplement. Therapeutics with herbal and dietary content have been US-FDA approved for various formats and claims. Research to develop Olisferrol® [organic] was ably assisted with information provided by US Government Human Genome Project. Clinical and Animal studies show molecules in Olisferrol® [organic] can reduce the risk of infection and the aggression of neoplastic cells but will not reduce all infection. If infection persists after taking Olisferrol® tell your doctor immediately. Low doses of Olisferrol® can be taken as a supplement, and will not required prescription. Higher doses can be administered by a physician in an I.V. containing normal saline. If you have any questions talk to a doctor. Concepts used to synthesize Olisferrol® are protected by US Patent 7,244,702 B2, and US Library on Congress Copyrights TXu 1-100-385. Users of Olisferrol® [organic] are encouraged to discuss their experiences with US-FDA.
